Letter From Administration

January 2021

Dear Abington High School seniors and families,

We are not sure what you will remember when you think back to your senior year. While we know it will likely be punctuated by the signature events and traditions that didn't happen, we hope this letter and yearbook serves as timeless evidence of what you did accomplish through one of the most tumultuous and meaningful times in American history.

The 2020-2021 school year was replete with new normals and new abnormals, requiring flexibility, creativity, and adaptability at nearly every turn. It will be tempting to look back and linger on what wasn't, but in the light of these incredible challenges, you also demonstrated incredible capacity as individuals, as a class, and as a team, to learn that nearly any challenge can be overcome when we are able to ask for, accept, and offer help. When an unwelcome negative interruption comes into your life, as life is guaranteed to provide, you may find that you emerge on the other side wiser, tougher, and grateful for that which you do have.

While it is tiring to have your resiliency tested so often, we hope the Class of 2021 can forever take some semblance of pride knowing that they passed a grueling test of life. We are honored to have had the opportunity to serve as your principal and assistant principal for this most challenging of years, and we look forward to hearing about your adventures in a brighter and better future.

Sincerely,

Jonathan Bourn

Letter From the Editors

Dear Class of 2021,

Well, guess what guys? After 12 years, we finally did it. We've had it rough the past couple of years. Our Junior year got cut short on March 13th and we didn't get to have our own prom, or see the Class of 2020 off with a proper goodbye. This year has been the strangest year of all – online classes, hybrid learning, and always having to wear our masks, on top of not being able to hug our friends or do the normal activities we would during the school year. But if anything, this yearbook shows that no matter the struggles, we can always come out of it stronger than ever.

Our yearbook theme is 2021 To Remember. We thought that this would be the perfect way to show off this year, because it is one that no one will likely ever forget. After all the struggles through our bad days and the smiles through our good ones, we are going to be the loudest class ever when we finally throw our caps up in the air.

In this yearbook we decided to throw in a little bit of everything. Everything is worth remembering which is why we included the little things that mean a lot to us – friends, sports, drama, and all sorts of clubs. This year is a little different because we have something extra, with the addition of mask breaks to our school day routine. We hope you enjoy all the masks and smiles hidden under them.

We want to thank all our peers for participating in the memories we have captured here, and to everyone who has made this Class what it is. Also, a huge thanks to Miss Slayton, who made it possible for us to put the yearbook together with all the important moments we want you to hold close and remember.

2021 might be our last year in Abington High School, but there are more memories to be made and experiences to have. And we hope that you cherish all of the good times that come your way.

Letter From Class officers & Advisor

Dear Class of 2021,

We would first like to thank all of you for your continued support of not only us as officers, but also your dedication to our class. We know this year has been very difficult and unlike any other year, but you all stayed strong to make this the best year we could have under the circumstances. Thank you for listening to our speeches, volunteering at our class events, and allowing us the opportunity to lead this class.

We would also like to thank our incredible advisor Mr. Cutter who stuck by our side and always advocated for what we wanted. He always has the best interest of the class at heart and has continuously allowed us to have opportunities, opening our eyes to more possibilities within reach. Along with Mr. Cutter we would also like to thank the wonderful parents of the class. Their efforts and contributions have put us on the road to success. From participating in the calendar fundraiser, supporting with the carwash, and then contributing to and attending the class auction. We sincerely thank you. Lastly, we would like to thank the AHS faculty for their continued support and participation in class events. Regarding the planning of events, we would especially like to thank Ms. Peck, Mrs. O'Donnell, and Mrs. Howell who provided us with their guidance and resources from their time as class advisors.

We know our time at AHS has flown by with our junior year being cut short and returning to senior year with unfortunate restrictions. However, we have stayed resilient. Although we have not been able to see each other we have stayed united as a class since day one. Whether that be supporting each other through sporting events, attending drama shows, or even keeping connected virtually. We admire our classes' maturity, kindness, and inclusivity and wish you all the best for the future :)

It sure was one to remember .

Sincerely,

Rachel Barrett (Class President)
Isabella O'Connell (Class VP)
Carly Mentis (Class Secretary)
Gracie O'Connell (Class Treasurer)

Dear Class of 2021,

Being your advisor was not a job that I particularly wanted, in fact when Rachel first asked if I would do it, I'm pretty sure I said no. Ultimately, I decided to help because I simply like you guys, and I do not regret it. Through my experience with the class of 2021, I've learned how kind, hardworking, and good-humored you all are. From English class, to sports, to extra-curricular activities you were always entertaining and inspiring. I don't think I NEED to remind you that 2020 was a crazy year, but I feel like I'm supposed to. I'm also going to attempt to avoid the phrases "unprecedented times" or "new normal". The fact is, since March of 2020, struggle and uncertainty have just been your reality. What I love about your class is that you didn't let that get you down. You remained mature, focused, and continued to zero in on all of your goals. I look forward to watching you all make an impact in our society for the better, and I know you will. Stay kind, and never lose your sense of humor.

Mr. Cutter

Being in the first intro to acting class in Junior year and meeting so many friends and having a lot of laughs!

Being backstage with all of my friends during a musical or play!

When, freshman year, during our last track meet, we inhaled helium from a balloon and laughed at the higher voices!

My favorite memories are from when we travelled to Italy and Greece right before the shutdown. I remember on our last day in Italy me and my roommates were hanging out in our room and getting to know one another when one of our phones rang. One of the girls boyfriends had texted them sending them into a rant about how she missed him and couldn't wait to see him when she got home. That led to me and my other roommate teasing her relentlessly for the rest of that night, as she giggled every time, he texted her back!

My most treasured memories are working on Abington CAM productions with all of the other interns!

When we went to school 5 days a week!

When as a freshman, junior, Danielle Panico, walked up to me and asked if I wanted to be the spring Track and Field manager that year! Little did I know that would become the thing I looked forward to most during every school year and something I would always remember.

The music Disney trip!

Junior homecoming! It was the last one I was able to have and I really enjoyed myself. I let myself go for the night. I had no worries and spent the time with my friends. I am not usually one to like dances or enjoy them, but this one was different.

Cooking in the co-ed class with Mrs. Keohane!

The Disney and New York trips with band!

Winning the State Championship junior year!

Going on the prison field trip with Mr. Moore!

Matty D in math class was a goofball!

STUDENT POETRY

a Year to Remember

A Graduate's Lookback
By Aidan Fisher

Twelve years in waiting,
with the chemistry of our future formulating.
Countless hours spent at a desk,
wandering the halls that lay grotesque.

To experience kindergarten once more,
where saying "potty" was deplored.
Watching lollipops sprout in front of our eyes,
or growing a family of orange butterflies.
The magic of kindergarten so bright and sunlit,
without it school would feel bereft.

Now I'm grown and in fourth grade!
Eating lunch in an outfit I made.
Dancing on desks after the state fair,
and leaving tie-dyed shirts to dry in hot air.
Throwing softballs at a dunk tank,
teacher falls into the cold water from a plank.

Do you remember throwing
that light green ball
against the wall?
Or sitting on the scorching picnic seat
after eating the "mysterious lunch meat?"
The memorable Boo Bash
filled with fun and games?
Middle school is so boring,
no recess is to blame.

But to middle school we go,
the emerald, green floors
with tall lockers full of everything known.
"You're clogging the arteries!"
Mr. Blanchette would say.
Living life like we were speeding
on the highway,
everyday feeling like a holiday.

A new locker, homeroom, and all new classes,
the upperclassmen moving slow as molasses.
A brand-new school, a fresh new start
where every little thing is taken to heart.
No memories to recall.
Little did we know this was the start of it all.

A long four years
full of interesting peers
with a future full of cheers
filled with emotional souvenirs.

So, here we sit drenched
in green polyester down to our knees,
with a gold tassel flying freely.
Sitting patiently waiting
for the printed paper advocating
for the future of you and me,
and graduation unclogs our arteries.

Healthcare Heroes
By Leah Kinniburgh

Healthcare workers on the front line
have no time to whine,
they are truly one of a kind.

Day in and day out,
putting their own lives at risk,
working countless hours,
using their powers,
hustling and bustling
to save those suffering.

Eye bags, sore legs, and brains fried from exhaustion,
so many new precautions,
what a time to work
at a hospital in Boston.

Nurse's hearts are broken,
but this truth is rarely spoken.
Caring for the virus-stricken is a must,
there is no time to adjust
to the grief and sorrow,
still looking to tomorrow.

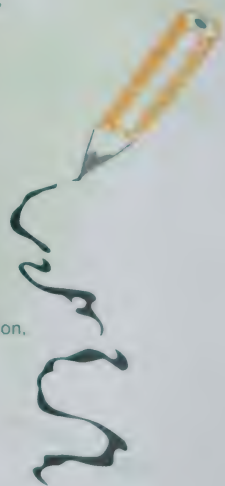

Dry, cracked hands like sandpaper,
red, rough, and tough,
Purell is a must.

No mask breaks
with the new mandate.
Stripped skin and hives
from that darn N95.

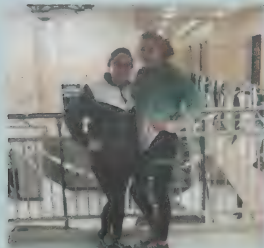

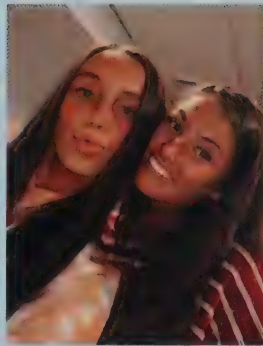

Being some of the first in the nation
to receive such an unfamiliar vaccination,
hoping it will be a success,
who knows the long-term effects?

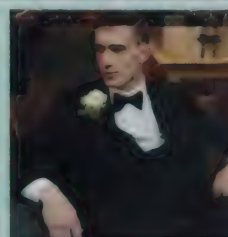

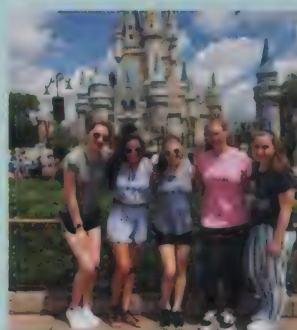

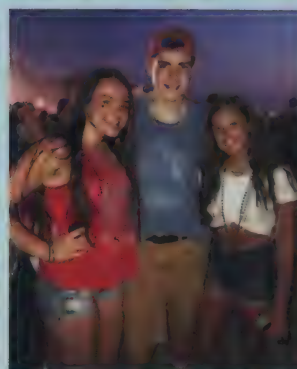

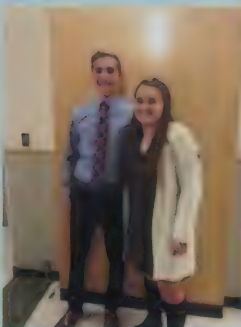

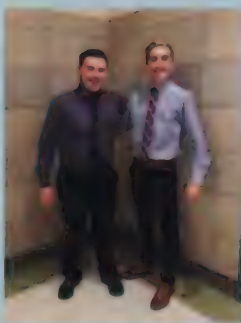

The appreciated
donuts,
coffees,
discounts,
lunches,
breakfasts,
signs,
have slowly declined.
Yet,
the cases still rise,
and these employees are hardly recognized.

It's time to acknowledge
the true heroes here.
We should make a pledge
to always care
for those who tend to the sick
during the pandemic.

Class Prophecy

At 18, Andrew Vasquez will be living in California and will never come back to Abington
Tanda McAullife will become a teacher and will be friends with every single one of her students whether they like it or not.

Lidia Vidal will go on to do artsy things and be the rich single aunt everyone aspires to be.

Kathryn Genest will become a director with a beautiful minivan.

I think Dylan Porter will make his Major League Baseball debut at 68 years old

At 30, Matty Maguire will finally learn how to tie his shoes.

At 22, James Foley will become the Wolf of Wall Street.

At 20, Olivia Bregoli is going to have a certificate for continuing her life as a "radiologist technician". By the age of 30 she will have 4 children, a husband and 2 dogs, living near her family!

At 20, Lea Bregoli will have a certificate for being an x-ray technician and continue her career. By the age of 26, she will be married and have a family of 4 with 2 children and a husband and 2 dogs, living near her family.

We will all be successful in our futures.

Erin Doherty will become a very rich and successful physician's assistant and live in a huge mansion where she drinks her fifth Redbull of the day in her third living room as her kids ride bikes in the driveway.

Brendan Remillard will be a star on Broadway as Seymour in Little Shop of Horrors!

Matty Maguire will play in the NBA.

Anthony Hajjar will become a very rich business and take care of Lyla Blanchard in her old age!

Connor Buckley will attend Boston College and become the best engineer EVER!

Mackenzie Cahill will develop a passion for surfing and become a professional photographer in California!

Aleena Magnasco will marry 7-foot professional basketball player.

At 25, Lyla Blanchard will be working at a marine wildlife center in Florida. She will not be married, nor have children, but she will live a fulfilled and happy life with her three dogs and four frogs.

At 25, Tom Boyle will be the most successful person in the world.

At 30, Mackenzie Cahill will still have a plastic planet constellation on her ceiling.

Abby Joyce will become a writer for the New York Times.

Luciano DaSilva will become a famous fashion designer.

Not a prediction for a classmate but for me: At age 25, I, Nicoli Costa, by God's will, will finish vet or law school. By the age of 30, I will be a well know Lawyer or Veterinarian who helps the people or animals in need. When I am 60, I will look back and thank God and my parents for everything they helped me through.

By 30, Kathryn will have a plethora of dogs and a wonderful house in Maine. Tanda will do great things, so many that I can't even fathom (or think of any). She will definitely kidnap a panda at some point. Abbey will be alive. I believe in her and her acquired thumb tack knowledge, it will make her immortal.

At 25, Nick Graf will be doing something. I don't know what he will be doing but it sure will be something.

Jake Frattalone will have at least 6 kids that he does not know exist across the country by his mid 30's.

At 25 Dylan Porter will be a charter fisherman for a living.

In ten years, Grace Monahan will be buying a beach house in Chatham.

Shortly after graduation, Aaron Johnson will go off to the school of his dreams to pursue his computer science career.

However, at the age of 26 he will realize he left his true passion behind... being a PeaPod shopper at Stop and Shop. He will then leave his job in the computer science field and work up the ranks to become the best PeaPod manager anyone has ever seen. Getting out of work early became normal. He does this until the age of 70 since he loves his job so much. His last day was sad for most, but his positive impact on those around him will live on forever.

Everyone will probably still be here. Working in business or something. Married by 25 or younger. With degrees in business and athletics.

At 35 Aaron Johnson, Derek Tirrell, and myself will still spend hours playing Settlers of Catan.

At 27, Roman Cippulo will have made enough money doing HVAC, that he will go on an extended trip to Europe. After a year of soul searching, Roman will realize that he loves the culture of Switzerland and will leave his life behind in the United States to pursue his passion. By age 31, Roman will be fully immersed in Swiss culture, lederhosen, and all, and become one of the most coveted yodelers in the Swiss Alps. By age 65, Roman will be one of the most decorated and awarded yodelers of all time. He will then go off to retire to his cozy mountainside cottage with his swiss wife Yolanda,

securing the greatest modeling legacy of all time.

At 35, Cahill will be a successful obstetrician and deliver my child.

At 25, Lilly will ended up at beauty school, where she will have an internship doing hair. By 30-40, she will own a beauty place and make lots of money. She will have a husband and three kids. At 60, she will wake up and have coffee with her best friends, remembering the good times she had.

Lily Jackson will be in Florida working making millions of dolores.

Krish Panjwani will complete his master's degree in computer science and work a boring programing job. At 26, he will quit his job to make a YouTube channel where he shows off comical and impractical apps he makes. By 28, he will join a popular YouTube group and reach 1 million subscribers.

Mark McLaughlin is going to work under a chef for 10 years and eventually become head chef at a Chili's, meet a nice woman and have 9 kids. then he will move on to retirement travel the world and give people advice, while drinking tea.

At 23, Abby Joyce will be a professional saxophone player sitting first chair in the biggest orchestra with other famous musicians.

At 15 years, Owen Ballum will likely be recovering from his tenth concussion.

The only thing I know is me and my boys will stack bread.

I think Nick Light is gonna go on to be a monk to follow the path to a spiritual journey of enlightenment like he always said he would, and Youssef Elhannawi will uh.... well, he'll figure it out when he gets there.

In 10 years, Aaron Siegal's mom will still be making his lunch.

At 35, Brian Tolan will be running for president of the United States.

Abbey Nordeen will be helping people as a psychologist, living in a yellow house with as many dogs as possible, continuing to brighten the lives of everyone around her.

At 26, Dylan porter will be a NBA all-star and win the slam-dunk contest.

At 35, Rachel Barrett will be the (first) female president of the United States.

I predict that Aaron Johnson, Matt Lyons and Derek Tirrell will all have won an Oscar by the time they are 50.

Carly Mentis will be a well-known director by the age of 42.

In about 15 years, 90% of us will be living on the South Shore and married to other people from Abington.

Maura Odell is gonna drive da boat.

At age 30, everyone will still be going to Aaron Siegal's house for his mom's food.

Victoria Seppala will definitely be a pro softball player.

At 30, Tanda McAuliffe will be a fantastic mother and have a great job as a nurse. She has always been extremely kind and mother like but always very supportive.

My friend Owen is going to attend college, but eventually drop out, maybe in the 1st but most likely the 2nd year. He is then going to fake his death in a house fire and evade the country. By now he is paranoid and he will then spend many years in Mexico hiding from the government. Owen will survive in Mexico off bags of Doritos. The rest of his life he will devote his time to sleeping.

At 35, Jessica Walton will be surrounded by dogs and in crippling debt. At 50, she will have found a man to pay for her extreme debt, then divorce him for the bag. She will then cry because Fred Weasley is dead.

Brady Cristoforo will become the Abington High School baseball coach, after the legend Coach P retires.

Luciano DaSilva will become a digital influencer and focus on his artistic career.

I see everyone succeeding in anything they would like to become.

Matty Maguire will be in the NBA.

Emily Cousley and Micheal Iyabambo will be changing the world somehow.

Dylan Porter will be a billionaire one day.

After enduring an eternity of long and arduous training, Krish will completely master the delicate art of facial hair, distant into the future at the ripe old age of 18.

By the age 45, this kid Jhoncarlos will have only 29 kids.

At 22, Caio Junior will be a hard-working student. He will have a scholarship for one of the best colleges for sports and he will start playing for one of the best teams in brazil. At 31, he will be married with the love of his life. In the end, he will be one of the greatest soccer players alive and make billions.

At 25, I see Natalie Jain lomba living in Cali with a degree in some art field

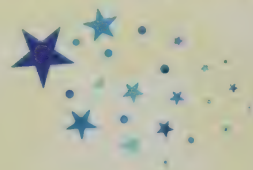

in his prime, Brian Tolan will be a world-renowned thespian.

I think this class will be very successful, as we have endured Coronavirus and easily adapted to it.

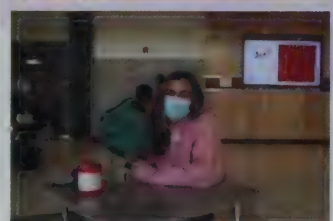

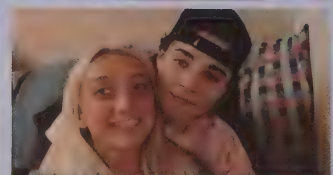

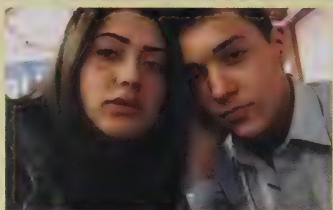

My prediction is that we were the last good class.

All my friends will be successful and have lots money in their futures. Hopefully!

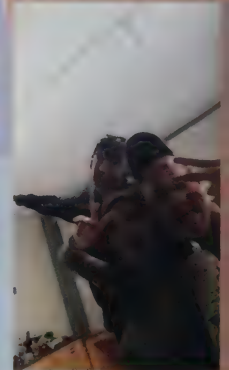

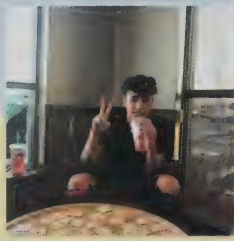

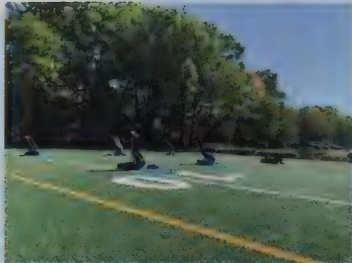

Micheal Iamambo is going to get so far with all the hard work he puts into school and how he invests his time taking advantage of any opportunity, just so he can get as much credit and the best grade.

Last Thoughts & Wishes...

"Take pride in how far you've come. Have faith in how far you can go. But don't forget to enjoy the journey."

—Michael Josephson

I am so happy it's over.

I want to leave important advice for any underclassmen. Get involved. AHS has much to offer when it comes to extracurricular activities. I truly believe that there is something for everyone from sports, to the school newspaper, to the TV studio we have in the school. These activities will allow you to make friends and give you something to look forward to. Do not pass up on this opportunity.

Miss you!

Thanks for everything, I will miss you!

Goodbye / Adeus

My last words of high school would be to tell all underclassmen to slow down at some points in their high school career and realize how fast it goes by. My thirteen year old freshman self blinked and is now graduating high school. When people tell you high school goes by faster than you think, they're 100% right.

I want my last words of high school to be: "what is my locker combination?" because there is most likely an overdue library book in there.

It went by fast, just like everyone said it would. I hope that every person will cherish the time they have because you cannot get it back. Everything ends eventually. As much as I have looked forward to this day, I will always hate endings, but endings are inevitable. Graduating is one of those days for all of us. Graduation is the day we say our goodbyes, but lucky for me, I have something that is hard to say goodbye to.

"We make a living by what we get, but we make a life by what we give." – Winston Churchill

I hope Mrs. Peck can find a new best friend once I'm gone!

Make lots of memories and enjoy it while it lasts!

Unfortunately, our Senior year isn't what we wanted or expected it to be, but we tried to make the best out of it. Just like I hope you all go on to make the best out of your lives. I would be lying if I said I wasn't going to miss high school. Good luck everyone.

Good luck!

Fake it til you make it.

It's been real. I've gained wisdom from this all.

Wait for it...

You only got 4 years here, make the most of it.

I honestly thought it would be MUCH harder.

Cherish every moment of high school... you never know when a pandemic will ruin everything.

I made it through the rain, now I just see the fog.

There were a lot of up and downs, but I made the best of it and found so many amazing friends.

"And...Cut."

Don't waste your time pretending to be someone you're not. It sounds cliché, but is really one of the most important lessons someone can learn.

Play hard, study harder!

Addio - (a form of goodbye in Italian)

Live in the moment. Don't dwell on the past. Live your best life.

I'm proud of everything my class did to make it throughout these last 2 years of high school.

Just be yourself, don't let anybody change who you are!

"Remember, failure is for failures"- Captain Raymond Holt, Brooklyn 99. This is the quote that has defined the Class of 2021, and I would like to bestow it upon all future graduates to encourage massive success.

Thank you to the teachers for an amazing emotional and moral support system!

"I don't think I even saw you open a book at home, imagine if you tried." - Mom

The journey is just getting started!

Speak up for what is right, do not let yourself be silenced.

Cherish every moment, no matter if it's good or bad because your years in HS will go by quick. Shoutout to everyone for being themselves and never giving up. Much love, Cliff out.

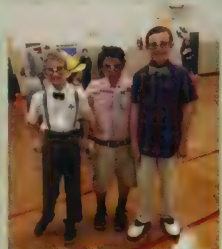

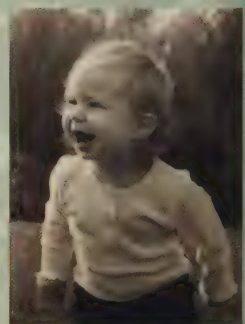

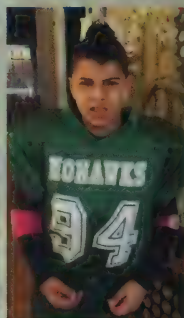

Put the effort in and Senior year will feel like a breeze!

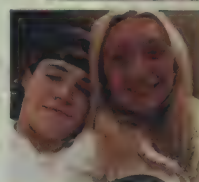

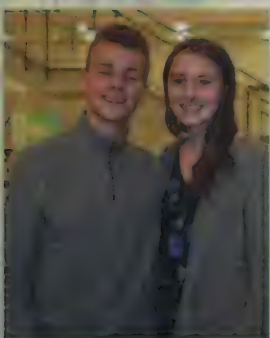

Thank god I'm out.

To my best friends who are underclassmen, keep your head up because soon you will be something great.

Congrats class of 2021, we made it!
